

ABBHEY EXTRUSIONS

EXTRUDERS OF CURTAINSIDER PELMET SECTION

Abbey Extrusions are manufacturing innovators of PVC Pelmet Sections, we initially got involved during the early days of Curtainsider production within the UK; our first PVC Pelmet Sections actually taking the place of commercial black rubber.

As suppliers of bespoke Pelmet Section to both original equipment manufacturers and the replacement market we have many different sections available from stock in black and white which usually satisfy most requirements covering various trailers and body configurations.

Alternatively we are able to quickly and easily produce any type of new Pelmet Section from conception to production in a variety of materials and colours.
